

# *Resource Consent Certificate*

**Resource Consent:** 125909

**File Number:** 61 01 65A

*Pursuant to the Resource Management Act 1991, the Waikato Regional Council hereby grants consent to:*

Whangamata Marina Society Incorporated  
PO Box 37  
Whangamata 3643

*(hereinafter referred to as the Consent Holder)*

**Consent Type:** Coastal permit

**Consent Subtype:** Disturbance

**Activity authorised:** Disturbance of the CMA for maintenance dredging of the Whangamata Marina access channel and associated vehicle use

**Location:** Whangamata Harbour - Moanaanuanu Channel

**Spatial Reference:** NZTM 1854999 E 5879650 N

**Consent Duration:** This consent will commence on the date of decision notification, unless otherwise stated in the consent's conditions, and expire on 31 March 2023.

**Subject to the conditions overleaf:**

## General

1. The maintenance dredging operation authorised by this resource consent shall be operated in accordance with:
  - (i) the application for this resource consent dated 19 December 2012, Waikato Regional Council document number 2319244, including the appendices and subsequent amendments and information submitted in support of the application; and
  - (ii) the resource consent conditions below which shall prevail should any inconsistencies between the application documentation and the conditions occur.

## Notification

2. The consent holder shall notify the Resource Use Group of the Waikato Regional Council and the Whangamata Harbourmaster in writing of the commencement and expected completion dates at least five working days prior to the commencement of the works.

## Operational Limits

3. The maximum volume of disturbance shall be no more than 1,000 cubic metres in any one calendar month.
4. The exercise of this resource consent shall not result in a cumulative total of more than 10,000 cubic metres of material being disturbed and/or dredged from the marina access channel per annum. To this end, the cumulative total shall include any material dredged under any other authorisation that allows for the dredging and/or disturbance of any portion of the Moanaanuanu channel between the Whangamata marina basin entrance and the confluence with the main Whangamata harbour channel.
5. The works authorised by this resource consent shall not be undertaken during statutory holidays or during the period between 20 December and 31 January inclusive unless otherwise agreed in writing by the Waikato Regional Council.

## Monitoring

6. The consent holder shall monitor the disturbance to validate dredging volumes and to assess the effects of the activity. To achieve this, the consent holder shall comply with the '*Monitoring Plan – Lift & Drift Channel Disturbance (April 2013)*' prepared by Whangamata Marina Society and documented as document number 2376412 in the Waikato Regional Council document system or any subsequent revisions or amendments which have received the written approval of Waikato Regional Council. Works shall be undertaken in accordance with the approved plan.

## Reporting

7. The consent holder shall provide an annual monitoring report prepared by an appropriately qualified and experienced person within one month following the last bathymetric survey of the year. The report shall, as a minimum, include the following:
  - (i) Dates, times and duration of works;
  - (ii) Volume of disturbance for each date;
  - (iii) Provision of raw monitoring data;
  - (iv) Evaluation of the current years' monitoring data including the validation of operating hours as a monitoring surrogate for disturbed volumes and an assessment of effects;
  - (v) Evaluation of the monitoring data gathered over the duration of the consent and an assessment of effects;
  - (vi) Evaluation of whether work practices, the works methodology or monitoring requires amendments to achieve and assess the conditions of this consent.

*For and on behalf of the  
Waikato Regional Council*

A handwritten signature in black ink, appearing to read "J. B. [unclear]". The signature is written in a cursive style with a long horizontal flourish extending to the right.

**Advice notes**

1. In accordance with section 125 RMA, this consent shall lapse five (5) years after the date on which it was granted unless it has been given effect to before the end of that period.
2. Where a resource consent has been issued in relation to any type of construction (e.g. dam, bridge, jetty) this consent does not constitute authority to build and it may be necessary to apply for a Building Consent from the relevant territorial authority.
3. This resource consent does not give any right of access over private or public property. Arrangements for access must be made between the consent holder and the property owner.
4. This resource consent is transferable to another owner or occupier of the land concerned, upon application, on the same conditions and for the same use as originally granted (s.134-137 RMA).
5. The consent holder may apply to change the conditions of the resource consent under s.127 RMA.
6. The reasonable costs incurred by Waikato Regional Council arising from supervision and monitoring of this/these consents will be charged to the consent holder. This may include but not be limited to routine inspection of the site by Waikato Regional Council officers or agents, liaison with the consent holder, responding to complaints or enquiries relating to the site, and review and assessment of compliance with the conditions of consents.
7. Note that pursuant to s333 of the RMA 1991, enforcement officers may at all reasonable times go onto the property that is the subject of this consent, for the purpose of carrying out inspections, surveys, investigations, tests, measurements or taking samples.
8. If you intend to replace this consent upon its expiry, please note that an application for a new consent made at least 6 months prior to this consent's expiry gives you the right to continue exercising this consent after it expires in the event that your application is not processed prior to this consent's expiry.
9. The consent holder is responsible for all contracted operations relating to the exercise of this resource consent, and should ensure contractors are made aware of the conditions of this resource consent and ensure compliance with those conditions.
